

Your private practice for Orthopedics and Trauma Surgery in Düsseldorf!

Welcome in our private practice for Orthopedics and Trauma Surgery in Düsseldorf, on the Rhine at kilometre 740!

It is our aim to quickly find the root cause for the pain in your musculoskeletal system with the help of precise and straightforward diagnostic check-ups. They enable us to start your holistic and tailor-made therapy as early as possible.

We are happy to invest as much time as necessary, using state-of-the-art tools and equipment. We are supporting you with our empathy and experience developed over many years.

Your modern practice for Orthopedics with feel-good ambience

Our new location was designed in June 2021 following the most modern architectural concepts.

For us, it was very important to create a feel-good atmosphere which invites you to spend time here and also fulfils all the requirements of a functional modern practice.

At the reception of our practice with feel-good atmosphere, our friendly and helpful staff will welcome you and certainly support you whenever necessary.

Holistic diagnostic methods from tip to toe in Düsseldorf

Holistic diagnostic methods form the basis for our therapy. We will carry out a comprehensive check-up of your body, also incorporating your medical history and your lifestyle.

We use very modern medical diagnostic equipment such as digital x-ray, MRI, 4D movement analysis and muscle function tests to establish a precise and straightforward diagnosis and its root causes.

Your wishes and goals are the basis of your tailor-made therapy

As we're very experienced in many different therapeutic procedures, we can offer you a whole range of holistic therapies. Besides conservative Orthopedics, we specialize in integrative therapies like chirotherapy/osteopathy, acupuncture and naturopathy.

Our therapies are based on your personal goals so that you will be without pain as quickly as possible and you will also be full of energy to do your favourite sport.

Certified foot surgery and arthroscopic surgery at the highest level

As we are very experienced in foot surgery and arthroscopy, we are specialized in treating foot deformities or injuries of the knee and ankle joints.

For our operations you will come to our clinic RKM740 either as an out-patient or in-patient.

Our operating theatres are equipped with the latest technology and equipment and offer safety and surgical standards of the highest level.

Prevention takes top priority in our practice for Orthopedics in Düsseldorf

It is our goal to prevent health issues or to stop them from re-occurring. Based on very modern prevention and check-up programs, we are able to detect risk factors at a very early stage to minimize the risk.

An orthopedic practice for all patients

We are a private practice but, of course, you're also welcome in our practice when you are under the national health insurance scheme and wish to pay for the treatment yourself. A lot

of check-ups and treatments such as osteopathy, sports medical check-ups and foot surgery are often partially covered by the national health insurance.

Short-term appointments and short waiting time

You can easily book your appointment online. We're also here for you to answer your questions via E-mail or telephone. We're looking forward to meeting you!
